

In the Specification:

Please replace the paragraph on page 8, beginning at line 4, with the following rewritten paragraph:

The obtaining of data at step 44 may be further described with steps 60 and 62. At step [62] 60, a determination is made as to whether the data is cached. If so, the data is retrieved and the process is done. If not, the process proceeds to step 62 where the physical address or the another physical address is provided to the memory gateway to retrieve the requested data.
